## SIR HARRY IS RIVALED BY LATEST CHECK MAN

Pseudo Army Man, 'Sir' Charles Lumby, Has Disappeared, Leaving Trail of Bad Paper

POSED AS BUYER OF HORSES FOR ALLIES

Case Is Strikingly Like Westwood Cooper One --Forgery Charge Is Made by Veterinary

After operating much in the manner of the notorious Sir Harry Westwood Cooper, alias Dr. Milton Abraham whose career in Oakland four years ago caused wide sensation, "Sir" Charles Lumby, who until Thanksgiving day posed as a veterinary surgeon and horse buyer for the British army, has disappeared, leaving a series of worthless checks behind him and taking along \$500 worth of bills collected for Dr. R. B. McComb, Hayward veterinarian.

Sheriff Frank Barnet holds a warrant against "Dr." Lumby, charging forgery. The names of well-known Hayward merchants were forged to checks, it is alleged, altogether the amounts reaching \$200.

There is striking parallel in the cases of "Dr." Lumby and "Dr." Milton Abraham. Both claimed to be scions of British nobility. They each came to Oakland unannounced and entered into professional circles. Each won the confidence of the men with whom they came in contact. "Sir" Harry had a prison record. He came from Australia. The authorities declare that "Dr." Lumby also is an old hand at the criminal game. It is also believed that he came here from Australia and that he has departed from this port by steamer.

IS HORSE FANCIER.

For some time "Dr." Lumby boarded with Mrs. C. E. De Witt in Jackson street. He left there and went to Dr. J. A. Hill, city veterinarian, stating that he had been engaged in taking care of horses shipped from Galveston to Liverpool, but that the risk was too great and he decided to come here to the Exposition.

"He asked me if he could stop at my establishment and I allowed him to do so. He exercised horses and remained with me for about three months," said Dr. Hill. "He was never under a salary with me. Then later he went with Dr. R. B. McComb at Hayward. He was a man about 40 years of age, slightly gray, medium height and well-appearing. He never aroused any suspicions on my part, and I did not lose when he left."

At Hayward, the authorities declare, "Dr." Lumby represented himself as a business partner of Dr. McComb, and in that adopted capacity proceeded to collect a number of outstanding bills owing Dr. McComb.

On November 24 Deputy Sheriff Joe Soares learned today, "Dr." Lumby came to Oakland with two suitcases. He rode a motorcycle which he had recently purchased and left the machine at Daly's stables, Fourteenth and Franklin streets. The next morning he called for the suitcases and has not returned.

CHECKS TURN UP.

Then the master of the fictitious checks was discovered, as was also the circumstances of Dr. McComb's bills having been collected. The warrants were then sworn out and placed in the hands of the sheriff.

While staying with Dr. Hill at 2509 East Fourteenth street, "Dr." Lumby was careful that he never left any mail lying about, according to Dr. Hill.

## MOTHER LOSES LEGAL TILT WHEN APPELLATE COURT REFUSES WRIT

GERALD MATTHEWS AND HIS FOSTER MOTHER, MRS. W. A. ROUSE, WHO HAS SCORED IN LEGAL CONTEST FOR HIS CUSTODY.

### For Second Time Court Denies Writ

Determined that no stone shall be left unturned in her fight for custody of her 8-year-old son Gerald, Annie Mathews, who was denied a writ of habeas corpus by Superior Judge Wells last Monday went into the Appellate Court for the second time yesterday and was again refused a writ. On a previous occasion the Appellate Court would not take up the matter.

After Superior Judge Wells denied guardianship papers to Mr. and Mrs. W. A. Rose of 755 Thirty-fourth street, who have raised the boy from infancy, they appealed to the Supreme Court. Then the mother sought to get custody through habeas corpus but Judge Wells held that the appeal stayed all proceedings in the matter and that under a previous order made by him the boy should stay with his foster parents until the case is decided in the higher court.

The legal battle for custody of the boy has been going on in the courts for more than two years. For his part, the boy has expressed a strong desire to remain with the family that has brought him up.

Twice since the litigation commenced has the mother, through her attorney and assisted by her brother, Mrs. and Dan Denny, attempted to take the child away from the Rose family through strategy. Both times were they frustrated by Mrs. Rose.

After the appeal of the first guardianship case in which custody was awarded the foster parents followed by a reversal of the decision in the Supreme Court, Annie Mathews went to the Rose home armed with an order of court.

Mrs. Rose, learning of the suit, took the boy out of school before his mother arrived and refused to give him up at their demand. It was then that habeas corpus proceedings were resorted to.

Judge Wells left the boy with the Rose family, pending new trial of the case.

When Judge Wells finally decided against the petitions they appealed. Although refusing guardianship to the Rose family the court did not award the child to his mother. She went to the Rose home to get him accompanied by a police officer. Again Mrs. Rose refused to give up the boy and habeas corpus was again invoked.

"It's a good illustration of the old legal adage that 'possession is nine points in the law,'" said Attorney W. B. Rinehart. "If the mother gets the child then it is up to us to get him back as best we can under the present status of the case. We have him and are going to keep him even if we have to build a high-board fence around the house."

It is human nature.

"But this matter has no connection with any so-called 'tipping of the lip,' or lessening of the regulations with regard to cafes, gambling or other matters of the kind. The chief has instructions to enforce the laws, I am leaving it to him to do so."

Chief Woods also denied that his instructions to his men to make arrests only where a conviction would be assured carried any implication that the city would be safe.

Wood also pointed out that the knowledge among the patrolmen that several members of the force had been forced to pay damages for the arrest of a woman of known irregular life, when the woman was released without a conviction being gained, would have its effect upon the enthusiasm of the men for this class of work, which has always been somewhat repugnant.

Men Under APPREHENSION.

"Of course you must realize that we cannot have these women at large about the streets," Woods said today. "We shall not tolerate that sort of thing. But I am not going to have my men under the constant apprehension that they will have to face damage suits."

"Personally, I favor the stand taken by my predecessor, Captain Petersen, that it is better to have a segregated district and to have the women remain in this district. There are many women of irregular life in Oakland today, probably as many clandestines as there were known ones in the segregated district. But the people of this city apparently do not approve of that method and it is against the law. The abatement act has pos-

## BOY-ED AND VON PAPEN MUST LEAVE

State Department Asks Recall of German Attaches

"Objectionable Activities" Is Announced as Reason

WASHINGTON, Dec. 3.—The State Department announced formally late today that it had asked for the recall of Captain Boy-ed and Captain von Papen, naval and military attaches respectively of the German embassy here, because of the "objectionable activities in connection with military and naval matters."

Captain Boy-ed's first activities which attracted the attention of the government were in connection with the misuse of American passports to German reservists seeking to slip through the allied lines to join their armies.

Some of the men in connection with whom the captain's name was mentioned now are serving terms in federal penitentiaries.

LANSING'S STATEMENT.

Later Captain Boy-ed's name was mentioned in connection with the chartering of ships from American ports to supply fuels and food to German vessels which in the first months of the war were hard pressed by the allied flying squadrons. The same alleged connection came up again during the trials of the Hamburg-American line officials just concluded in New York, in which it was testified that Captain Boy-ed handled the money which came from Berlin for chartering the ships and furnishing them with supplies.

The government did not contend that an offense against the neutrality of the United States had been committed by sending the ships, but that the officials of the Hamburg-American line had guilty knowledge of the fact that the customs houses of the United States were deceived and defrauded into issuing clearance papers for ships on false statements.

CHARTERED SHIPS.

Secretary Lansing issued this statement:

"On account of what this government considers improper activities in military and naval matters, this government has requested the immediate recall of Captain Boy-ed and Captain von Papen, the German military attaché, as they are no longer acceptable to this government."

The inference ran broadly all through the trial that Captain Boy-ed, too, was cognizant of the offenses which the government charged, and in the early days of the trial his name was frequently mentioned in open court by the government prosecutors. Finally the State Department here suddenly intervened and cautioned the officials of the judicial arm of the government that unless they expected to indict Captain Boy-ed for the offenses charged, the language employed by prosecutors should be avoided for the reason it might endanger the friendly relations between the United States and Germany.

LEFT TO GERMANY.

By informing the ambassador that the attaché is persona non grata the United States leaves it with the German government as to the manner in which Captain Boy-ed shall terminate his connection with the embassy. This is the usual diplomatic procedure in the case of an attack of an embassy or a legation whom the United States finds objectionable.

Captain Boy-ed's activities in the United States since the war began have been the subject of close attention by the state department and the department of justice. Several times it had been broadly hinted that the American government might intimate to Germany that the operations of her naval attaché were objectionable with the inevitable suggestion that his connection with the embassy should be terminated.

Each time, however, the threatened action came to nothing. While the state department consistently refused to discuss the captain's case the German embassy intimated that it had reason to believe he had done nothing for which he should be censured.

The name of Captain von Papen has been brought to official attention in connection with charges of plans to cripple American munition plants and most recently in connection with the recall of Dr. Constantine Dumka, the Austrian ambassador, lately seized upon James F. J. Archibald, an American war correspondent, who disclosed the activities of the Austrian ambassador mentioned Captain von Papen's name.

It was said at the State Department that Count von Bernstorff had been notified of the government's attitude and that announcement had been withheld to give the ambassador an opportunity to communicate with his home government. It is understood Count von Bernstorff has notified

the family of the young man when conveyed to them at their home this afternoon.

Mrs. Irving was so overcome by the news as to be unable to discuss it except to say:

## Diamond Badge Is Given Jackson

A beautiful diamond studded badge of office was presented to Commissioner of Public Health and Safety F. F. Jackson today at the conclusion of the council session. The presentation was made by Dr. D. Jones, president of the civil service board, at the request of a number of Dr. Jackson's friends who had contributed to the gift. The list included a number of members of the police department, the chief and several captains being among those who appeared at the council session when the gift was made.

The badge was to have been presented to Dr. Jackson on the occasion of the anniversary of his birthday, November 26, but as the commissioner was ill at that time, the date was changed.

Dr. Jackson made a brief talk expressing his thanks. Mayor Davis, the other commissioners and his friends crowded round to congratulate him.

Acid arsonists are abroad in Oak-

land. Unidentified men, who have been seen lurking about the premises where the fire was started by acid within the last forty-eight hours, are being sought by the detectives of the city.

The last of these fires by acid or

a high explosive was discovered last night in the barracks of the Salvation Army at 503 Webster street. The

flames not alone threatened the lives

of many sleepers but fumes filled the

long sleeping quarters and for a time threatened death by suffocation.

The police are of the opinion that

the fire was started by the same per-

son who threw acid on the steps of

the home of G. Florin, 1332 Kirkham

street, Wednesday night.

In the Salvation Army barracks a

pile of refuse had been saturated with

acid, which, according to the police

was similar to the explosive used

at the Florin home two days before.

A careful investigation by detectives

is being made.

## AID RUSHED TO LINER, DISABLED IN GREAT PLOT

Minnesota Limping Back to Port as U. S. Officials Start Investigation of Conspiracy

## SHIP'S CREW IS SUSPECTED

Steamer and Tug Speed to Side of the Giant Freight Carrier; 'Anxious Inquirers' Under Espionage

In the belief that the disabling of the giant freight carrier Minnesota now limping toward San Francisco port was the work of members of the crew, and that the "accident" which has prevented a valuable cargo from reaching Great Britain, was the result of still another "war plot," aid has been sent to the stricken vessel. A most thorough investigation is to follow.

The steamer Iroquois and the tug Dauntless have been ordered to meet the Minnesota which at midnight was 760 miles south of San Francisco. No further word has come from the wireless aboard the freighter.

The Minnesota left Seattle on November 14 with 16,000 tons of food-stuffs for London Wednesday the wireless sputtered a message that is today alarming the waterfront and is threatening to open an investigation as wide as that of the recent bomb plot. The Minnesota, the wireless said, was putting back to port with disabled machinery. It was also learned that there was trouble with the crew.

Owing to the fact that it has been freely predicted in shipping circles that the giant carrier would not be allowed to complete its voyage and was to be turned back to the port of London, the crew was rife, news of its plight is accepted as momentous.

Apparently disinterested persons in San Francisco and Seattle, at least four days before any trouble developed aboard, were anxiously inquiring if the ship was not returning and confidently predicted she would have to return to this coast.

This is the principal confirmatory evidence to the theory that the ship was damaged as the result of a plot.

TO INVESTIGATE.

James Dolan and Joseph Cuthie, United States inspectors of hulls and boilers, nominally will conduct the investigation. But Col. J. O. Davis, editor of the Port J. O. Davis, in co-operation with them or work independently, will endeavor to ferret out the men believed to be implicated in the conspiracy.

Shipping Commissioner Walter MacArthur may also be called in.

The Minnesota left Seattle on November 14 with the largest crew ever assembled on this coast. The crew list contains 325 names and every large country on the globe is represented except Germany.

GERMANS IN CREW?

As the destination of the big steamer was London, no men giving their nationality as German were accepted.

A persistent rumor abounds since the departure is, however, that a dozen Germans signed on as Norwegian.

Previously to the departure the Minnesota was held up nearly a week in Seattle by crew trouble. There were mutterings then of an outbreak, and an open mutiny was feared by the officers.

## Hamburg Officials Are Found Guilty

NEW YORK, Dec. 3.—Three crewmen and a subordinate officer of the Hamburg-American line were found guilty last night in the Federal Court of having violated the laws of the United States in sending coal and supplies to German cruisers in the Atlantic in the first few months of the European war. The court returned a verdict of guilty on each of two indictments.

**THE FOUR AFFECTED.** The four defendants affected by the verdict are Dr. Karl Euerz, managing director of the Hamburg-American line in New York City, former German Consul General here, Otto of Gerhard Minister to Mexico and German Commissioner in the Venezuelan arbitration proceedings before the Hague Tribunal, George Kott, general manager of the line, Adolf Hackmeister, general purchasing agent, and Joseph Poppingshals, a former officer in the German navy, and at present a second officer in the Hamburg-American line. A fifth defendant, Felix Seiner, supercargo on one of the neutral steamers sent to supply the German fleet, was not brought to trial. He was captured by the British while on his errand of relief and is at the present time a prisoner in a Canadian detention camp.

**TAKE VERDICT CALMLY.** The four defendants took the verdict calmly. Prosecutor Wood made this statement for the government:

"This verdict means that the laws of the United States must be obeyed. It means that citizens of all belligerent powers must observe our laws. If our laws are violated by any of them and our government finds it out they will be prosecuted."

The specific charge against the defendants was conspiracy to deceive and defraud the United States. The maximum punishment for each indictment is two years imprisonment and \$10,000 fine. A date for passing sentence will be designated. An appeal, it seems certain, will be made to the Federal Court of Appeals, and in case the verdict is upheld, to the Supreme Court of the United States. In the meantime the defendants will probably remain at liberty under \$5000 bail each, as it is the present intention of the government not to ask that the bond be increased.

## Prominent Diplomats Involved by Smith

SAN FRANCISCO, Dec. 3.—A widening circle of evidence, enmeshing in its complications a number of circles, was drawn out today in the examination of Louis J. Smith, alleged accomplice of C. C. Crowley, the San Francisco detective held as suspected leader of a gang organized to destroy ships and munition plants helping Germany's enemies. Smith was before the grand jury today, and, according to court attacnes, has made a complete confession of his part in the supposed plot. Whether his testimony incriminates Crowley, the officials would not say.

It was rumored that in his testimony Smith mentioned Cedarhurst, Long Island. This place is known as the summer headquarters of Count Von Bernstorff, the German ambassador. Federal agents say it is probable that Crowley, who is much traveled, may have visited this place, but whether it has any significance in the present situation the attorneys cannot state.

Besides facing charges of violation

## RUSS IN BULGARIA; NEW BALKAN MOVE

LONDON, Dec. 3.—"News that the Russians have entered Bulgaria has aroused intense interest and there is no lack of speculation as to the next development in England, but too far off to be certain," Reuter's correspondent said. "Scheming to give more than a vague promise of military support to Bulgaria would be disappointing to the British cause, which is disengaged in the war of Italy, a policy not shared by our government. In this connection, a report that after British and French delegations had been received in London, the German ambassador had informed the German government that he had become persona non grata in the United States, Government.

Shaw Predicts Many  
Years of Fighting

Peace Party Will Sail From  
New York City To-  
morrow.

NEW YORK, Dec. 2.—Henry Ford said today he had made his will as one of the final preparations for the end of his absence. He had completed all arrangements for the conduct of his business during his absence. Ford also announced that he intended to sail with Edward and George, his sons, on the steamer to the State Department, had refused to issue passports to his three sons. "I am prepared to meet any emergency," he said. "If we fail this time, we will start again at the beginning. I am going to keep on trying until we have come."

The Scandinavian-American liner, the "M. V. Amerika," will leave New York tomorrow afternoon at 4 o'clock, according to agents of the line. Ford has engaged her first and second cabin for his peace envoys. In addition, 450 passengers going to Norway, Sweden and Denmark for the holidays will occupy the third class quarters. All passports will be examined at the pier and it is said no person will be permitted to go aboard without one.

Halvor Jacobsen, the line's manager, stated that a cablegram was sent to the British Consul in New York to withdraw his possibility that British warships might intercept the liner. If a message to Char- take the steamer to Kirkwall he said that Major McVerny had said the list had been few of the line's steamers had been taken there recently as the British government had been content with stopping the vessels off the north coast of Scotland. Request, as far as Washington, to New York to sail in the peace party.

### Thief Pursued; Leaves Stolen Coat Behind

W. H. Endes, 711 Oak street, was awakened early this morning by a burglar who had been at work in several rooms, and purchased a revolver from his gun store. The burglar was a man wearing a heavy overcoat, and when Endes started to fire, the thief ran out of the room. Mrs. Mary Stewart, 1124 Franklin street, reported that her coat had been taken with diamond buttons and a

large watch valued at \$50. She was unable to give more details as to how the robbery was committed.

The scene of William Strawser, 445 Poplar street, was entered last night while Strawser and his wife were at the movies. A small savings bank with its contents missing was also taken. Mrs. Mary Stewart, 1124 Franklin street, reported that her coat had been taken with diamond buttons and a

**FIRE BURNS RESIDENCE.** Fire last night at the home of Mrs. Mary Stewart, 1124 Franklin street, in the city. The house started afire and spread through the roof to the interior. It was believed to be caused by a short circuit in the electrical system. The fire was put out.

# THRONGS AT OPENING OF HOME SHOW

Auditorium Is Filled With Household Exhibits

Interesting Program Is Arranged for the Evening

Thousands of interested Oakland people last night wandered through a maze of food, products and carpet sweepers, clotheslines and sunshades, electric lights and canned meat, and every possible article of food, equipment and utility that could be classed as "household" articles. When the addition was transformed into a vast department store for the big "Household Show" last night. The opening of the big ten-day affair saw the great hall crowded from door to door. The show covered with booths, containing nearly every possible form of exhibit, some from local manufacturers. In special booths were displays of automobiles, furniture and electrical machinery. The Oakland post-office has a novel display, showing the details of the handling of the parcels post, and the Vocational High School is displaying millinery. The Alameda County Anti-Tuberculosis Society has a hygiene exhibit, and several other special displays proved points of attraction.

The program last night was contributed to by the big chorus of Alexander Stewart, the Hawaiian Glee Club, Mrs. Ruth Waterman, Anderson, Paul Allard, Mrs. Rose Allard, and Miss Marion Oliver, F. J. French, of the Alameda County Export Commission; Thomas Fallon, of the Berkeley Chamber of Commerce, who was chairman of the evening; Mayor John L. Davie, Mayor S. C. Irving of Berkeley, and Mayor F. H. Bartlett of Alameda, were the programmed speakers. The big show will continue until December 11. Each day will see cooking lessons by Mrs. Mary L. Holmes and Mrs. Carrie Dwyer.

## ACCUSED CLUB MAN ACTS AS OWN LAWYER

RUSK MOSSHOLDER

LOS ANGELES, Dec. 3.—Acting as his own attorney, Rusk Mossholder, San Diego clambake and bon vivant, today appeared in the United States court in this city and pleaded not guilty to a charge of smuggling opium across the Mexican border.

The young defendant, who is one of the popular figures of San Diego and Coronado society circles, was arrested by federal authorities on November 13. Today, arraigned before Federal Judge Bledsoe, he denied the charges and requested that his trial be held in San Diego.

Granting this request, Judge Bledsoe set the case for March 14.

Mossholder, who appeared in the High Court of Justice, succeeded in getting a

reversal of his conviction on a charge of smuggling opium.

Federal authorities had demanded some time ago that I tell them what they thought I knew about the alleged notorious gang of opium smugglers. I had nothing to tell. Following my refusal I was arrested.

"I am still receiving invitations to Coronado dinner dances and to all the best homes in San Diego. And society down there is merely sniffing at the accusations against me and the allegations that more big names of the city are to be caught in opium smuggling."

Mossholder said: "I have grown up in San Diego and I and my father know all the old sea dogs and pirates round the bay. Many of them are our clients. All of them are my friends. I have two Chinese clients in the penitentiary now convicted of smuggling opium."

## Ladies Are Now Extinct Species

## College Co-Ed Wants Them Called Women

BERKELEY, Dec. 3.—There are no more "ladies" at the University of California, in fact, there are no more "ladies," according to one of the feminine sets now attending the State University. By this it is not inferred that the "ladies" dead in the male "ladies" species, have become extinct, but it is a sign of civilization and advancement according to the proprietors of the girls' trade.

All happened last night. F. E. Scott, professor of advertising, was giving a course in that subject yesterday. He constructed on the blackboard of the lecture room a neat little advertisement designed to sell shoes—ladies' shoes. So the word "ladies" was frequently used.

The class was astounded, all except one.

From the back of the room a voice was raised in protest. It was a voice silvery and gentle in tone, but had a ring of determination in it that caused the lecturer to pause abruptly, chalk in hand.

"I object to the use of 'ladies' in that advertisement. Since we are allowed to vote we don't want to be called ladies; we are women. That word should be women—w-o-m-e-n."

Scott was of the same opinion.

Schaefers Bids U. C. Students Farewell

BERKELEY, Dec. 3.—The University of California student body gathered in mass this morning at the final all-class meeting of the semester, at which James G. Schaeffer and Farnham P. Griffiths were the speakers. Griffiths delivered the introductory speech. Schaeffer appeared before the university public for the last time while connected with the University of California.

"I love California as much as ever," Schaeffer said. "I do not want the students to feel sorry for me. I resigned because I was not capable of carrying out the duties of coach under the American football code."

Schaeffer spoke on the ideals of athletics, drawing upon his fund of experience and information gained in his long service as head athletic coach in the University of California.

Griffiths reviewed the athletic situation with particular regard to the University of California's relations with Stanford.

Suit to Separate Roads Is Near End

ST. LOUIS, Dec. 3.—The government's suit to separate the Central Pacific from the Southern Pacific railroad were resumed before three federal circuit judges here today, with the expectation that they would be finished before night. Peter F. Dunne, who began the closing argument for the railroads yesterday, continued it today. Edward F. McClellan, who prepared to follow him with brief rebuttals, was not present for the government.

Peter F. Dunne, in his argument for the railroad today developed the idea that the Southern Pacific line from San Francisco south and then east to New Orleans was in reality built by the Central Pacific.

DO YOU SUFFER FROM BACKACHE?

When your kidneys are weak and torpid they do not properly perform their functions—cause back aches and you do not feel like doing much of anything. You are likely to be despondent and to borrow trouble, just as if you hadn't enough already. Don't be a victim any longer.

The old reliable medicine, Hood's Sarsaparilla, gives strength and tone to the kidneys and builds up the whole system.

Hood's Sarsaparilla is a peculiar combination of roots, barks and herbs. No other medicine acts like it, because no other medicine has the same formula or ingredients. Accept no substitute, but insist on having Hood's, and get it today. Advertisment.

Silence of Greeks Arouses Suspicion

PARIS, Dec. 3.—The prolonged silence of the Greek parliament respecting the demands of the entente allies has again aroused the suspicion of the French press. One newspaper goes so far as to assert that Greece has concluded or is about to conclude a treaty with Bulgaria, by the terms of which Monastir and the Vardar valley in Serbia are "ceded" to Greece in return for aid against the Anglo-French expeditionary forces.

SERBS AT SALONIKI

ATHENS, Dec. 3.—Members of the Serbian chamber of deputies and the minister of war have arrived at Saloniki, while the minister of finance is at Florina, Greece, fifteen miles southeast of Monastir. Other Serbian governmental offices now at Elbasan and Koritza will be removed to Avlona, Albania.

New U. S. Cruisers to Be Ocean Greyhounds

MARE ISLAND, Dec. 3.—The United States navy is planning to make the new battleship the fastest war craft of any nation in the world according to advices received here from Washington. Eight propellers will be added to the new warships, providing for a speed of thirty-five knots an hour.

The proposed navy greyhounds with guns of the most modern type, will be able to carry on the work of two of the present type of cruisers. The navy department is now devoting its energy to developing a new type of ship with greater speed than any other war craft afloat.

The Response Will Be Unanimous

As the Chairman of Committees on Public Utilities for the Closing Day Celebration, P. P. I. E., Saturday, December 4, Mr. E. G. McCormick of the Southern Co. Company has been asked to see that every employee and patron of every railroad and steamship line in the world at 12:00 o'clock noon, San Francisco time, Dec. 4, reads President Wilson's toast to be proposed at that hour on the White House steps, as follows:

THE PANAMA-PACIFIC INTERNATIONAL EXPOSITION

WHICH in its inception and success-

ful accomplishment gave striking

evidence of the practical genius

and artistic taste of America;

WHICH in its interesting and unusual

exhibits afforded impressive illustration of the development of the

arts of peace, and

WHICH in its motive and object was

eloquent of the new spirit which

is to unite East and West, and

make all the world partners in the

common enterprise of progress and

humanity.

To accomplish this, every railroad

MANY TROUBLES DUE TO WEAK KIDNEYS

"It is no use advertising a medicine

unless the medicine itself is good

enough to back up the claims you

make for it. On the other hand it is

a pleasure for druggists to sell a

medicine when customers come in

afterward and tell how much good it

has done them. And that is why

druggists like to sell and recommend

Solvax, the great kidney remedy.

Ever since we first introduced Solvax

druggists have been so busy selling

it that it is sometimes hard to keep

a sufficient stock on hand. More

over Solvax is always sold on a

postage guarantee of relief to the kidney

sufferer or money back. This may

seem rash but users have said so

many good words in favor of Solvax

that it is not expected that many

packages will be returned."

This shows great faith in Solvax.

It really is a most unusual medicine

because it overcomes the worst cases

of kidney complaints by removing the

cause. It goes straight to the seat

of the trouble. It soaks right in and

cleans out the kidneys and makes

them pass of all the uric acid and

poisonous waste matter that lodges

in the joints and muscles, causing

rheumatic pains; soothes and heals

the bladder and quickly ends all such

troubles.

Nothing is more uncomfortable or

hurts a person's perfect enjoyment of

life more than troublesome kidneys

and their attending evils. Use Solvax

and begin to get the full measure of

benefit out of life. Sold by The Owl

### New Swedish Hall Will Be Dedicated

Preparations have been completed for an elaborate program in connection with the dedication of the new Swedish American Hall at Twenty-third street and Telegraph avenue Saturday night. Swedish feasts from all the cities of the Bay counties will participate.

**ACTRESS FOUND DEAD.**  
ATLANTIC CITY, N. J., Dec. 3.—Lilly Hinton, famous as an emotional actress twenty years ago, was found dead at her country home at Linwood, near here, yesterday. Heart disease was given as the cause.

Musical numbers under the direction of the Svea Male Chorus of Oakland, assisted by the Swedish Singers Society of San Francisco, will be among the chief features of the evening's entertainment.

Many of the most notable of the suc-

cesses stored by the United Swedish Singers of America in their grand concert at Festival Hall in the Panama-Pacific Exposition and in the Municipal Auditorium in this city will be given again.

The most prominent Swedish societies of Alameda county will have their headquarters in the new hall, which has been erected at a cost of \$40,000.

NEW YORK READY  
FOR EMERGENCY

Police Department Arranges  
Plans to Cope With Any  
Need.

NEW YORK, Dec. 3.—Police preparedness for any great emergency is being handled in scientific fashion, according to the abstract of the quarterly report of the department, made public by Commissioner Woods. The committee he has appointed is developing a system by which the police may readily cope with any situation.

Complete data concerning everything that may be needed in case of power failure, reservoirs, hospitals and large buildings for shelter, supply centers, railroad, steamship and automobile facilities, munition stores and armories and their owners are part of the information handled in this preparation for emergencies," the report states.

A scheme of auxiliary signals and communication has been perfected and men on the force are practicing in the transmission of messages. Officers who are assigned to instructions in the United States army camp at Plattsburgh have made careful notes, particular attention being paid to commissary and quartermaster details. Details of field bakeries are also being worked out, and professional and business men who may aid the department with their special knowledge, covering a wide field of activity, have been listed for emergency work.

SNAKE SWALLOWS WATCH.  
SUNBURY, Dec. 3.—Overheated while cutting wood on his farm at Kline's Grove, near Sunbury, Pa., Charles E. Johnson, a well-known farmer, took off his vest and hung it on a low sapling. His watch chain dangled near the ground. Returning, he put on his vest and looked for his watch, but it was missing. Blaming the theft on a tramp, he went into the house to tell his wife of it, and when he returned he found a huge blacksnake and killed it. A suspicious lump protruded from its stomach, and, cutting it open, he saw the watch roll out, un-damaged.

## Tribal Laughing Girls Eligible for Marriage

PHILADELPHIA, Dec. 3.—By tramping around a whole winter in the 80-below-zero climate, 750 miles from the nearest Russian exile camp, in the wilds of northern Siberia, an expedition of the University of Pennsylvania Museum has discovered the right way to live.

The Tungus, a hitherto unknown tribe of wigwam-dwellers, raw meat eaters and joke crackers, whose present code of living is of the 10,000 B. C. period, have solved the problem.

True happiness, the Tungus convinced the explorers, leads via the gullet into the stomach and after the stomach is stuffed until primitive vest buttons pop, the next rule in the happiness code is to widen the diaphragm in a huge laugh, the hugeness of which determines all further social status in the community.

The happiness rule, along with other interesting facts about this lost tribe, was presented yesterday in London, where the expedition is now preparing a detailed report on its Siberian trip.

"The most laughable part of the Tungus code," says the report, "which further explains, 'they are enormous eaters and full of jokes.' The tribe laughed and stuffed food at all functions, including weddings, priesthood and wigwam pole dedications. Girls who could eat the most and laugh the hardest were considered the most eligible for marriage.

CARPENTER-MADE POETRY.  
HALL, John, a carpenter of Columbus, Ohio, has written a poem, "Please, Oh Please, Give Me Five Cents," and the other was "The Banks of the Mawmee."

Hall was skeptical about the "Banks of the Mawmee," but he waxed enthusiastic about "Please, Oh Please, Give Me Five Cents."

He wrote to her: "I do not inquire in flats, but I believe your work is clever and original. If it has only a moderate sale—say 250,000 copies—your royalties will be \$750."

So Mrs. Haynes sent a dollar a week for thirty-five weeks to have her poem printed, with music written by one of Mr. Hall's "artists." She testified she never received any copies of "Please, Oh Please, Give Me Five Cents."

## CLERK WHO SHOT POSTMASTER DIES

*Farm Education Expense Doubled*  
*But Even So, State Does Keep Up With Same*

E. J. Kaiser Recovering From Bullet Wounds at Ashland.

ASHLAND, Ore., Dec. 3.—William Greenfield, mail carrier, shot E. J. Kaiser, postmaster, and then turned the gun upon himself, died from his wounds at the hospital this morning.

Greenfield was transferred to the Ashland hospital from New York several years ago. It was not known whether he was to have been discharged or not at the time of the shooting.

Some time ago he applied for the service of the post office, but, failing to get it, he became enraged and turned his gun upon himself. He was struck in the head, and died.

Kaiser has been postmaster at Ashland for 20 years, editor of the Ashland Herald and a well-known political leader.

**Higher Prices Are Offered for Wool**

LAKEVIEW, Ore., Dec. 3.—Months ahead of the time for shearing, and a very short period before the usual season, Eastern buyers are offering the highest prices ever paid for raw wool.

By the time of the fall, the following disposition of the property was made: Mary Isabelle Gibson, Elbert, Oregon, received \$1,000; R. J. Gibson, son of the deceased, \$1,000; and R. J. Gibson, son of the middle child, \$1,000.

Market for wool is intensely firm. While the high woolen interests are still making desperate efforts to hold up prices, they have been beaten out of the market, and are likewise trying to hold up the prices. According to the market report from the home place, Mrs. Zeta Gibson, granddaughter, West third of the 120-acre tract and the middle third of the 120-acre tract, Ray Gibson, Coloma Gibson-Snavely, Ouida Sackett and Gazebo Gibson, grandchildren, east third of the 120-acre tract and east third of the 120-acre tract, were the greatest wool farmers within the common season that was ever known in the world's trade.

## Woodland Pioneer Leaves Big Estate

WOODLAND, Ore., Dec. 3.—Postponement of the will of the late Mrs. William B. Gibson has been filed with the county clerk, showing a total value of something over \$100,000.

The will was supposed to have been made by Mrs. Gibson last August 18, and R. J. Gibson was named to be sole executrix to give way to him.

By the time of the fall, the following disposition of the property was made: Mary Isabelle Gibson, Elbert,

Oregon, received \$1,000; R. J. Gibson, son of the middle child, \$1,000; and R. J. Gibson, son of the deceased, \$1,000.

**ATTACKED BY COYOTE.**

SPARKS, Nev., Dec. 3.—L. N. Sullivan, an employee of the Southern Pacific, while inspecting some discarded fire boxes in the lower end of the Sparks railroad yards, was attacked by a vicious coyote, but succeeded in killing the animal before it could sink its teeth in his flesh. Sullivan's clothes were badly torn in his struggle with the animal.

**BIG STOCK SHIPMENTS.**

WINNEMUCKA, Nev., Dec. 3.—Miller & Lux, who have extensive cattle ranges in the eastern part of the state, are shipping large numbers of cattle to San Francisco and Oakland. Livestock shipments out of this place have been heavier this fall than for several years.

## Between the ages of 6 and 12

Here is advice for parents

IT is between the ages of 6 and 12 that the jaws as a rule fail to develop to their normal size," writes H. P. Pickerill, M. D., a world-quoted authority.

"During this period, therefore, the need for generous mastication (chewing) is imperative," the eminent Doctor continues. For new and larger teeth are coming. The jawbone must grow normally to accommodate them.

Otherwise "crowding" of teeth is very apt to follow—and "crowded" teeth invite lodgment of food particles between them. The food particles make the acid which hastens decay.

At this period of the child's life chewing of Sterling Gum gives the jaw much needed exercise—promoting full growth and full room for the important second set of teeth.

Welcomed as a "goody," the delicious peppermint flavor of Sterling Gum pleases the children while doing them good.

This may sound interesting enough to you to be the 7th Sterling point. But it is not.

## \$270,000 MINING DEAL PUT THROUGH

**Salt Lake Capitalist Buys Up Group of Forbestown Properties.**

BERKELEY, Dec. 3.—The California State Board of Agriculture has nearly tripled their expenditures on agricultural research, and the last year the state has turned out a large number of publications on subjects of interest to the people.

During this period the state has increased its funds for the federal government.

California has recognized agriculture as a great and important industry.

It is the first time in the history of the state that the state has turned out a large number of publications on subjects of interest to the people.

The property purchased includes the Gold Bond group of four claims and a tunnel, the Gold Mine group of two claims, and the Shoshone group of three claims and three patented claims.

The mines are located in the mountain country in the northwestern part of the country. The company is now operating the mine under a lease, but has been unable to develop it on a large scale. The mine was first operated under the chlorination process, but the expense proved to be too great.

The miners are met with difficulties in getting the machinery to the mine, as the roads are blocked out, machinery has been installed and the mine given a thorough test. One shipment has been made to a Utah smelter.

Bruce, who has just returned from Salt Lake City, will be an engineer, form a company composed of Salt Lake City capitalists to develop the mine.

The identification and arrest were made by the Shasta county sheriff. Bruce marks on the fugitive's face were the probable cause of the discovery.

Sheriff Boyd had occasion to come down to the Shasta valley, and he came to Tehama, where he met Constable Aitken and they discussed the Kennett tragedy. Each had received a card of description and as they compared notes they saw a stranger lying on a bench in front of the Hotel. They noted the exema marks and then retired to a short distance to study the description in detail.

Going back to the hotel, they approached the stranger. Sheriff Boyd said:

"Say, you are the man we want. You are the man who killed a man at Kennett Sunday evening, aren't you?"

"Yes," replied the stranger, "but I killed him because he first threw a beer bottle at me and cut me on the hand. I shot him through the door."

## Pine Needle Basket Making New Pastime

ATURB, Dec. 3.—Basket-making from pine needles is becoming popular as a winter diversion up in the Tahoe district. In many homes at Tahoe City this will be the pastime during the long winter evenings.

It is the work of the Teachers' Institute recently held in this city, when Miss Clara D. Barnhisel gave instructions every day in basket-making art to the pupils.

Miss Neil Sugars, teacher of the Tahoe school, has been teaching basket-making to the pupils and they are taking a great deal of interest in it, having stored quantities of the needles to cure for use when the deep snow makes indoors the only comfortable place to spend one's time.

## Old Bumble Bee Mine Will Buzz Again

OROVILLE, Dec. 3.—The Butte Gold Mining Company is preparing to vigorously operate its Josephine and Bumble Bee claims, five miles from here. A power plant, dredge and machine drills have been ordered, and a new mill capable of crushing 25 tons per day, is en route to the mine. Excellent hoisting equipment has been provided and the mine placed in shape for extensive operations as soon as the mill is in position. The old plant was found unsatisfactory.

## Block of Concrete Houses for Quincy

QUINCY, Dec. 3.—W. Hemstall, is building a concrete block building on the lot near the postoffice. It is not yet decided whether or not the second story will be immediately erected.

W. J. Clinch intends to build a concrete block building on the site of the postoffice. J. W. Egbert is making cement blocks to erect a concrete block building on his lot next to his saloon. When the building is completed, there will be a solid block of buildings from the town hall to Frank Vore's building. All the buildings will be fireproof.

**TWO MEN ROBBED.**

SAN FRANCISCO, Dec. 3.—Don Hill, 532 Howard street, and P. Lollo of the Fullman Hotel were victims of footpads last night. Hill was robbed of \$52 at Pacific avenue and Montgomery street by two thugs. They leaped on Lollo in a corridor of his hotel, stealing his watch and \$15.

# Woman in the News

SAN FRANCISCO, Dec. 3.—Walter M. was to marry him and that November 11 was the son of the late Thomas Warren, and that what happened to spoil the wedding. Mrs. Sue Cox, who is the late bride, is not set forth in the complaint, which was filed against the city of San Francisco, leading bankers were married recently in San Francisco yesterday and left at once for Nevada, where they will make their home.

## OFFERS FORTUNE TO VICTIM'S WIDOW

LOS ANGELES, Dec. 3.—The funeral of George S. Putnam, Jr., 11, was held yesterday at the Calvary Cemetery, an Oakland, Calif., funeral director.

The service was focused in the morning and then were reinterred in the afternoon. It was expected that they would stop at Sacramento on their way to Nevada.

Walter M. M. was the widow's husband. His former wife, who was Mrs. Fred Dean, is now Mrs. Walter Hobart.

The present Mrs. M. is a widow of J. C. Pieron of Nevada, a mining man. A burglar has been found near the Pieron home.

M. M. was a dairy cattle rancher in Nevada. He will look after this business and the mining interests of his son and his wife. M. M. is 41 years old and his bride is 25 years of age.

**NOTED SCULPTOR GRANTED DIVORCE**

SAN FRANCISCO, Dec. 3.—Arthur Putnam, famous sculptor and one of the designers of the Exposition statue, was granted a divorce by Judge Trout yesterday from Grace S. Putnam on grounds of desertion.

Putnam's divorce petition was filed secretly Wednesday. An answer by the wife, filed in open court yesterday at noon, made it possible for the case to be heard immediately. Mrs. Putnam was not in court, but was represented by an attorney.

Putnam testified that his wife had left him and gone to New Mexico, but had refused since that time to return to him. He said she was living at present in Richmond.

Dr. George, the 4-year-old son, was awarded to the custody of the mother, with whom he lives. The other son, Bruce, 12 years old, is with his grandmother, Mrs. Mary M. Putnam, of Portland, Ore., and he is to remain in her custody.

By mutual agreement the community property, consisting of land on Forty-fifth Avenue in this city and in Marin county, and in San Francisco, George Putnam, a man, a brother of the sculptor, and the proceeds to be used by him for the support of the two children. Putnam stated that the other property rights relating to the support of his wife had been arranged out of court.

## SUES WOMAN FOR \$25,000 "BALM"

SAN MATEO, Dec. 3.—A woman was made defendant in a breach of promise suit yesterday, when Dr. Charles Stanford Eagle of San Mateo, filed an action demanding a \$25,000 heart balm from Miss Iola Redwine, reputed owner of several lodging houses in this city.

Dr. Eagle says Miss Redwine not only broke her promise to marry him, but that during the time of their engagement she did not hesitate to accept from him a \$500 diamond ring and a gown, hat, slippers and gloves, which he says cost him \$336.50.

But he does not ask for the return of his presents. He merely says that the suffering and humiliation consequent on his having to pay the \$336.50, and on top of this he assesses the exemplary damage at \$10,000.

In his complaint Eagle says that Miss Redwine promised on September 30 last

## ANNA HELD HERE TO SEE EXPOSITION

SAN FRANCISCO, Dec. 3.—Anna Held arrived from Los Angeles yesterday, where she has been appearing in a \$25,000 moving picture production, under direction of Morsco. She is at the St. Francis hotel.

Her purpose in visiting San Francisco is to see the Exposition. Also the noted actress wished to make sure that she has no prospects of inheriting the estate of Charlie St. Maurie, a Sacramento woman, who died recently.

Miss Held delayed returning for her jewelry, and who claimed to be a relative to Miss Held.

Anna Held's attorney in San Francisco, Charles F. Hall, informed her she was possessed of no claim either by will or by relationship, and that the estate goes to the state of California for lack of other heirs.

Miss Held devoted much of her time to Red Cross work while in Paris, contributing \$20,000. She intends soon to return to "La Belle France" to continue her charitable work.

## NERVOUS BREAKDOWN MOVIE-LAND CITY

Stamford, Conn., Nurse Tells Policy of Retrenchment Inaugurated by Film Firms.

Stamford, Conn.—"I am a nurse and suffered from a nervous breakdown. I had no appetite and could not sleep at night, and nothing seemed to help me. By chance I heard of Vinol, and after taking the first bottle noticed an improvement, and four bottles made me well and strong. It gave me a new appetite, so I sleep soundly night and day. I consider Vinol a wonderful tonic." Edith R. Forbes, Stamford, Conn.

The reason Vinol is so successful in overcoming such conditions is because it is a natural remedy and goes to the seat of the trouble. It is the greatest strength creator we know due to the extra vital medicinal elements of fresh colostrum with oil, combined with proportionate of iron and beef peptone, all dissolved in a pure medicinal wine.

We have seen so many wonderful recoveries like this right here in Oakland caused by Vinol, that we feel perfectly safe in offering to return money in every such case where Vinol fails to benefit. The Owl Drug Co., Oakland, Cal.

### First Slide Blocks Shasta Route of S. P.

The Shasta route was blocked three hours yesterday by the first landslide of the season. A great mass of large rocks, loosened by the heavy rain slid down the mountain and smashed through the sloping roofs of wooden portals of tunnel No. 9, sixteen miles south of Dunsmuir.

A wrecking crew from Dunsmuir cleared away the rubbish in three hours and passenger trains were but little delayed.

The Southern Pacific had just increased its patrol of track walkers, whose important duty during the winter is to look out for landslides and washouts.

THE GRIP.

Grip is something of a joke to those who have never had it, but they get it when they become addled to all sorts of stimulants. No disease was ever more appropriately named because it can take hold of the system. To get rid of it take Chambeau's Grip, Balsam, which will serve the directions with each bottle. This remedy is highly recommended by those who have used it and know its real value. For sale by Osgood Bros. Drug Stores—Advertisement.

MAKES STATEMENT.

Upon assuming charge Davis made a statement in which he denied that there was lack of harmony because of divided government. He said that the directors of the Universal City, or the coming instant retrenchment, "It costs money to make motion pictures of quality and wherever it is necessary to spend money the Universal Company stands ready to do so," he said.

The Fine Arts Film Company, formerly the Reliance-Majestic, which D. W. Griffith had founded, is in process of reorganization following the most important shake-up in its history.

A number of directors and about thirty-five members of the stock company have been released.

A tremendous pay-roll containing much deadwood is said to have been responsible according to one of the officials of the company. "We have been spending too much money," he said, "and the payroll was cut down to the people we actually need." The expensive methods of some of the directors are said to have been the cause of their decapitation.

MAN HEADS FALL.

The retrenchment wave is also said to have struck the Selig studios.

It has never had to all sorts of stimulants. No disease was ever more appropriately named because it can take hold of the system. To get rid of it take Chambeau's Grip, Balsam, which will serve the directions with each bottle. This remedy is highly recommended by those who have used it and know its real value. COMPILING THE RECORD OF FAILURE IN  
THE PHILIPPINES.

Dr. David P. Barrows, dean of faculties of the University of California, is among the first six best-informed Americans on the Philippines and the Filipinos. He went to the islands immediately after the United States assumed control of affairs and was for six years director of education in the Philippines. During his occupancy of this important office he appointed more than one thousand employees in the insular service. The statement of Dr. Barrows in The TRIBUNE of yesterday is therefore an important contribution to the existing information regarding disorganization of government and failure of Democratic policies in the islands.

Dr. Barrows' statement is a complete confirmation of the stories of incapacity told to this newspaper last September by former President Taft and Mr. O. Garfield Jones. In so far as the attack of Secretary of War Garrison upon Judge Taft may be dignified as a "controversy," Dr. Barrows' statement multiplies the difficulties of the Washington administration should an attempt be made to cover up the sad trail of administrative misdeeds committed by Governor-General Francis Burton Harrison. Dr. Barrows condenses the more important features of the unhappy situation in two paragraphs.

In the first he tells what the present administration found upon assuming charge in the Philippines:

The most important act passed by the Philippine Commission within a few days after it began its life as the legislative body for the Philippines, in September, 1900, was the Philippine civil service bill, personally drafted by Mr. Taft himself, who had been for many years a recognized advocate and supporter of civil service reform in the United States.

Judged by results, this was the most successful civil service system ever inaugurated under the American flag.

This civil service system, embracing, as it eventually did, several thousand Americans and an even greater number of Filipinos, not only made possible the success of the Philippine government from 1901 to 1913, but it was a most important asset to the government of the United States. During this period Washington repeatedly drew upon the trained staff of public servants in the Philippines for duties of delicacy and importance in connection with American interests outside of the Philippines.

The second paragraph describes what was done by Governor-General Harrison in carrying out the policies of President Wilson:

Following Governor-General Harrison's arrival in the Philippines, October 6, 1913, the following bureau chiefs were either summarily dismissed or resigned or transferred under circumstances that were more or less sensational and alarming. The executive secretary and the assistant executive secretary, the heads of the bureau of customs, of the bureau of printing, internal revenue, postoffice, agriculture, public health and quarantine service, including the chief medical officer of the Philippines' general hospital, navigation, audits, treasury, prisons. This list represents only heads of bureaus and has no reference to the corps of trained and liable men who were shaken out of subordinate positions. Further than this, the Philippine commission was completely reorganized by President Wilson. The resignation of every American member was accepted, and of all the Filipino members, except one, so that an entirely new group of men, untrained, and, as far as Americans were concerned, without any experience whatever in Philippine affairs, were appointed to the most responsible tasks in the government of the islands.

Governor-General Harrison's administration in the Philippines, in my opinion, has failed.

As we have previously pointed out, Secretary of War Garrison has made no effort to discuss the truthful statements of conditions published from time to time in The TRIBUNE. He has made a weak attempt to becloud the issue by intimating that the author of two of The TRIBUNE'S articles had also offered to write an account of the things which may be said in favor of the administration. Doubtless several articles of average length must be composed about the worth-while accomplishments in the islands during the last three years, but they would not be comparable to the interminable, wholly confirmed and sorrowful story of failure and general retrogression. Mr. Jones was asked by The TRIBUNE to write a fair and justifiable critical article on Democratic rule in the Philippines and only to state what could be proved. He did just this and no more. Judge Taft formally approved of his articles as to their statements of facts. Further than that the statements are confirmed, in addition to the statement yesterday by Dean Barrows, by thoroughly reliable confidential reports from the islands, such as those by army officers—who decline to talk for publication.

Speaker Champ Clark has invited Dr. Anna Howard Shaw and other prominent suffrage leaders to occupy a front seat on the opening day of Congress, when Representative Mondell will introduce a resolution providing for an equal suffrage amendment to the Constitution. A front seat in the gallery in the House is much more than the platform of the Democratic party promises women and it is improbable that the present Democratic Congress will give them more than that. In extending his invitation Speaker Clark probably was unmindful of the fact that the women's fight is against a seat in the gallery.

## WOMEN AS WORKERS.

In an article under the title of "The Efficiency of French Women as Railway Workers," the Railway Age Gazette informs us that no less than twenty-five thousand women are working on the railroads of France. The women are praised for their adaptability to all sorts of employment; they are found working as guards, conductors, station-masters, porters, carpenters, clerks, platform cleaners, oilers of locomotives—in every position except that of the locomotive engineer.

France has never blushed at seeing her women at work in the fields, as fruit vendor and janitor, and man has watched the results rather jealously, fearful that she might encroach upon other activities higher up in the scale of respectable occupations. This feeling has completely disappeared during the last year, when France has proudly watched its women put their hands to every kind of task that its men might be at the battle-front.

Says one French official: "But for her active hands the munition factories could not have been kept going at their high speed; but for her the entire postoffice system of the country would have broken down under the double strain resulting from the enormous free military correspondence. Unspoiled by too much prosperity or by false standards of social and economic equality, she works with a will and does her task down to the last detail."

After peace is restored what is France going to say to its heroic women? Perhaps it would be better to ask what are the French women going to say to their men and their government? We fancy there is going to be some serious talk and that women will emerge from the discussion with greater privileges and higher consideration. If a nation cannot do without its women, what ought it do for them? The French women being modest, we believe the answer will be pretty much as they desire it. With a little foreign coaching they might ask for the privilege of suffrage. And the world is full of coaches.

## THE MINORITY LEADER.

By the election of Representative James R. Mann as their leader the Republican minority of the House has taken the step which will give their organization the greatest measure of efficiency. No more able leader could have been chosen, nor one with a more complete knowledge of all the phases of Congressional legislation, or with the capacity to keep track of all legislative activities as they progress from day to day.

Representative Mann was minority leader of the sixty-third Congress and so goes to his work in the coming session even better equipped than he was during the first Congress of the present administration. He has been a member of the House for eighteen years and prior to the sixty-third Congress was chairman of the committee on interstate and foreign commerce. He is the author of the pure food law, the so-called "white slave" law and was largely instrumental in drafting the Panama canal legislation.

The most striking of Mr. Mann's characteristics is his ability to keep a mental record of every bill and resolution introduced in the House until it is disposed of. This faculty has long been the wonder of his colleagues. Combined with this, he is a master parliamentarian, a tireless worker and fearless of the political consequences of his actions.

## ECONOMY.

The prize story of official economy is printed by the Los Angeles Express. Unfortunately for the local newspapers the action it records was visually manifested in the southern city and a "scoop" was scored.

The Los Angeles secretary of the Public Utilities Commission decided to move the books and local records from his office in the Bullard block to the second floor of the Union League building, a short distance away. She wrote the office of the commission in San Francisco that she would need a little assistance. Prompt action was taken. Bright seventeen-year-old Ned Daugherty, office messenger, was given one of the commission's official railway passes and sent to Los Angeles. Ned and Miss Jeanette Converse carried the records from the old office to the new.

Thus the commission, which gets railway fare for its employes for nothing, was saved the expense of employing a youthful office helper for the few hours' necessary work. The railway commission uses nearly one hundred thousand dollars' worth of free transportation annually.

The Territory of Alaska is to seek at the present session of Congress admission to the Union as a full-fledged State. There is not much chance of the bill which Delegate Wickersham carried to Washington being passed at the present session, yet there will be enough members in favor of it to lead to interesting speculation. If Alaska is admitted, Hawaii and Porto Rico will be the next applicants for statehood. Congress will introduce a resolution providing for an equal suffrage amendment to the Constitution. The suffrage amendment has been liberal with Alaska during recent years, but it may be too early to expect its general adoption.

A front seat in the gallery in the House is much more than the platform of the Democratic

party promises women and it is improbable that the present Democratic Congress will give them more than that. In extending his invitation Speaker Clark probably was unmindful of the fact that the women's fight is against a seat in the gallery.

## WHAT TO DO WITH THE BELL.

Unquestionably, the Liberty Bell has made a great hit in its journeys through the country. There is much to be said in favor of sending it forth upon important occasions. It arouses patriotic feeling. It is an object lesson of genuine interest.

But there is another side. Its shrine is Independence Hall. There are those who regard these junketeings as belittling. Then, again, there is always the danger or disaster. Thus far it has escaped, although there have been instances when its safety was actually menaced. The nation cannot afford to lose the bell in railway accidents or fires.

We would be glad to know now that it is back in its old home, it will be permitted to remain there, and we are inclined to look favorably upon the movement started by the Daughters of the American Revolution to secure legislative enactment which will place the custody of the hallowed relic of independence and liberty in the hands of a commission to be composed of representatives of patriotic societies and metallurgists.

Whether there are legal difficulties in the way we do not know, but the suggestion is one worthy of careful thought. If action is to be taken along these lines, we should not wait until another demand is made or the presence of the bell in some remote section of the country. The future should be guarded against.—Philadelphia Inquirer.

OWN FAULT,  
IS REPLY OF  
ENGINEER

"Hayward Board Won't  
Fire Me," Declares  
Goodwin

Property Owners Are at  
Blame, Says the  
Official

The Hayward town board won't fire me. At the same time I don't care for the job of city engineer of Hayward, there is neither honor nor money in it. I'm sorry for the property-owners who protested against the street improvement rates, but if those are high, they bring it upon themselves by their foolish procedure. They deserve the biggest lashing of their lives. In these terms Robert L. Goodwin, city engineer of Hayward, this morning replied to an attack upon him by a number of property-owners before the town board Wednesday evening, when it was charged that too expensive pavement had been installed on C street and that assessments were made a burden.

Who's going to be good fellow enough to play Santa Claus and do it without publicity or hope of reward? Why not teach your own children the real gospel of Christmas by letting them take care of less fortunate youngsters on that day?

The TRIBUNE will furnish you with names and addresses of children in Oakland whom Santa Claus will overlook unless you intervene in their behalf. We will return your own letter to you with the names of as many children as you desire. We want you to take the things yourself on Christmas Eve. Don't send us any money or any gifts. Do it yourself. Address "GOOD FELLOW," OAKLAND TRIBUNE.

assessed fairly. If they do not think so, then that's their misundertaking. According to the method of procedure in carrying out this pavement it was difficult to make an accurate estimate.

CHARGE NOT HIGH.  
"If I did get 5 per cent on the contract, what is that? There is nothing in it. To be city engineer, you have to be an attorney and do the surveying. I spent five months in Hayward looking after the C-street business and each day it cost me from \$12 to \$15. Other small towns I am told pay 7½ per cent on such contracts and also \$250 for legal work in connection with them.

"As for the attack upon me, there are several men I have to meet yet. I have a long memory," concluded Goodwin.

The long drawn-out controversy of the property-owners has been accentuated by a climax to repeated protests against the C-street work at the last town board meeting, when the removal of City Engineer Goodwin was demanded.

Goodwin was indisposed and did not attend the meeting, being represented by Charles Warren of the Oakland street department, who explained the assessing of C street about which complaints had been made. Not for long has such a stir created in the principal circles, and with the property-owners thoroughly aroused over what they consider extravagance in carrying out the street work developments in the situation are expected.

# CONGRESS IN WILL SOUND SPLIT OVER 'TAPS' FOR RULES BILL JEWEL CITY

Complications Arise to While Echoes Fade Art  
Prevent Joint Smith Will Loop  
Session "Farewell"

President's Message May  
Not Be Heard  
Tuesday

WASHINGTON, Dec. 3.—Many complications, including a delay in the organization of the Senate and the prevention of the joint session of Congress Tuesday to listen to the president's address, are threatened in the caucus split of Democratic senators over the proposed future bill.

When the Democrats today resumed discussion of the measure, which is designed to put an end to the filibustering tactics, these possibilities loomed large.

The hope of the leaders of the administration forces is that some agreement may be reached on Monday when proposed amendments will be considered. It is being conceded that concessions will have to be made.

If the majority fails to agree upon what the new rules shall be and the chain should hold that the Senate is not a continuing body, there might be serious difficulty in organizing the Senate on opening day. Senators Owings, Williams and Woods have maintained that the rules must be adopted Monday.

The organization of the house minority was effected last night with Representative Mann of Illinois as candidate for speaker. The 149 Republicans present acted unanimously except when one member, Representative Cooper of Wisconsin, protested unsuccessfully against the adoption of a resolution authorizing Mann to call all Republican members of committee.

In his speech of acceptance Representative Mann advocated the consideration in non-partisan manner of the plans for defense.

It is really surprising the amount of interest that "The Bird of Paradise" contest has aroused among the readers of the TRIBUNE. Letters are coming in by every mail and no one on the paper ever dreamed that there could be so many words made out of the title of this popular play.

Miss Carlotto Monterey, who by the way is an Oakland girl, and plays the leading part of Luana, the pretty little Hawaiian princess, is very much interested in the contest, and calls up every day to ask if there are many answers.

# California Launches Successful Filibuster in the North; New Coast Conference Formed With Washington, Oregon and Oregon 'Aggies'

## U. C. WINS OVER THREE COLLEGES IN NORTHWEST

All Hope of Settlement With Stanford Goes by the Board.

PORTLAND, Ore., Dec. 3.—Leaders from the University of Oregon, University of Washington, University of California and Oregon Agricultural College are the leaders of the Northwest. After a secret conference of several hours at 10 o'clock this morning, formed a new Pacific Coast Conference with these four institutional representatives.

Scottish games were scheduled as follows:

October 21—Oregon at Berkeley.

November 4—Washington at Eugene.

November 18—Washington at Berkeley.

November 25 (Thanksgiving)—California at Seattle.

Oregon Agricultural College games are:

A basketball schedule, from which Oregon is excepted for the first year, and baseball and track schedules are being arranged.

Stanford University will not play American football next season, so its two representatives at the meeting said, and is unwilling to adopt a one-year residence rule, and so is, for the present, ineligible for membership.

The status of Oregon, O. A. C. and Washington in the Pacific Northwest inter-collegiate conference will not be disturbed.

The school will play its schedule in both conferences and the membership of the Northwest Conference will remain as at present. The games among Washington and Oregon and O. A. C. will count as those of the conference.

The new coast conference adopted the freshman rule unanimously.

Scouting for prospective members of athletic teams was strictly prohibited.

The amateur season of 1915 is to be held in December at Seattle.

The above dispatch would indicate that we were hopelessly involved in the conference between California and Stanford by 1915 and a re-creation of the "big game" has been blasted for the time being. Stanford will have to form athletic relations with the other schools in the Pacific Coast conference. The Cardinal has lost Washington as an athletic rival, means no opponents for rowing, track, football and basketball.

From healing the breach, the visit of California and Stanford delegates to Portland has only roused up the more California to be sure, has induced the two to meet in the open, and Stanford appears to be in a worse position than ever.

## TRIBUNE LEAGUE NOTES

With the ending of the first half of the season in the Class A division of the Oakland Tribune Midwinter league interest is fast growing as to the outcome of the race. The teams have strengthened and the lineups have been set to give the local bush fans a treat for the balance of the season. The players who came into the teams as stragglers have been absorbed and the new members and mates are getting out a great deal of team work, dropping all individual playing.

The games Sunday will be between the Legion Stars and the S. P. Store team at the Grove street grounds at 2:30 p.m.; at Melrose the Maxwell Hardware Co. will tackle the Ambrose Tailors at 4:30 p.m.; while the Legion Stars and the Bills will face the J. K. Kriers. The Tailors, Stars and Bills each won their games on the last meeting and the two teams on the open Sunday will make an effort to be the losers to change the verdict Sunday.

A meeting of the leagues was held last evening in the Class B circuit, the game between the Fruitville Native Sons and the Berdillon Hatters, and which was called off as the Native's did not have a team on the ground. The game was to be played on the 28th.

Several of the managers in the Class A claimed that other managers in the Class B were not playing some of their players. As there is a rule governing the leagues which states that no player in that circuit can be paid, it was made known that if any of the players were receiving remuneration for their services the game would be given to the opposing team.

Three changes were made in the list of the players turned in by the managers. Manager Remmer of the M. A. C. was allowed to substitute players for Al Schamuel. Manager Hedding of the S. P. Store team was allowed to substitute Catcher Downey for Watchers, and Manager Lawlor added his name to his list as he overlooked it when sending in the names.

Class B games Sunday will be between the Athletics and the Billie Bills. The Athletics will be the banner card of the day as the Berdillon Hatters was the victim of a brace of accidents that were funny for everybody but him.

One day during the year I was with the Athletics, "I" said Billie Bills. "I am the victim of a brace of accidents that were funny for everybody but him."

Furthermore, Bill's fighting system failed him, too, the other day. "Tat" Lawlor was the victim of a brace of accidents that were funny for everybody but him.

SHADES OF FRANK IVES!

Balk line billiards appear to be a great success on the billiard room tour in which all but Billie Hoppe have been eliminated. Hoppe will leave the Tribune and Lawlor will be the new leader. The former is to attend. Henry Cane and W. C. York will be the Stachels' battery, and the team includes A. Lewis, F. Coopas, F. Marshall, Charles Lewis, Miller, Royle, Frank, C. C. and Frank.

## HOW MUCH DID YOU PAY FOR YOUR LAST SUIT?

### CALICO AND HICKORY AT POVERTY BALL

If you forgot the amount, the chances are ten to one that you haven't forgotten that it seemed a good deal of money to plunk down at one time.

Most men can't spend \$15 or \$20 for a new suit of clothes, with a "feeling it." Many hundreds of them prefer to pay for their clothes on installments, paying a fraction of the price when they pick out their suit and paying off the remainder in convenient weekly or monthly sums. And that's just what they do at CHERRY'S Credit Clothing Shop at 515 Thirteenth street.

Simple as daylight! Just go up to CHERRY'S and pick out the suit or overcoat you want. CHERRY'S keep "open shop" every Saturday evening as well as all day.

They have another big shop at 515 Thirteenth street, where they sell women's wear exclusively. In San Francisco they have two stores one at 1609 Market street and the other at 2409 Mission street.—Advertisement.

### Auto and Aeroplane Race for Oil Land

OKMULGEE, Okla., Dec. 2.—An oil lease said to be worth several hundred thousand dollars was the prize at stake yesterday in a race between an aeroplane and an automobile, and the aeroplane won. On receiving news that the oil lease on the land of Tony Webb, an Indian, had expired, two oil men here hurried to reach the Indian first to obtain the coveted oil rights to his property. E. W. Gill left in an automobile. He had four miles start when a representative of the Kingwood Oil Company procured an aeroplane from a local school of aviation and, sweeping across south through the air, passed his competitor and signed Webb to the lease before Gill arrived.

### Complexion Like a Lily in a Few Days

Behind a Mass of Pimples Beauty Lies. Stuart's Calcium Wafers Will Quickly Remove Them.

All about us every day we see women who would be exquisitely beautiful were it not for the trouble of pimples, said eruptions and discolorations.

This condition is primarily brought about by impure blood. Correct this condition and the skin clears almost magically.

"I Got Rid of My Pimples in a Hurry With Stuart's Calcium Wafers."

The greatest blood purifier known to science is calcium sulphide. It is one of the most marvelously acting ingredients nature has ever given man to assist in blood cleansing.

It makes no matter what your trouble may be, blackheads, pimples, liver spots, muddy complexion, tetter, rash, boils etc. calcium sulphide, as included in Stuart's Calcium Wafers, quickly corrects the faulty condition and restores a normal and delightful colorful skin.

You may obtain a box of Stuart's Calcium Wafers from any drug store—price 50 cents. Get a box today and see a wonderful difference in your complexion in a very few days.

FAST ELECTRIC TRAINS TO Sacramento

MRS. WILEY K. HICKS

Calico gowns and overalls and hickory shirts will blossom again at Maple Hall, Fourteenth and Webster streets, this evening. A month ago it was the "hick" of the United Commercial Travelers—the biggest dance they have held this season. This evening it will be the long-heralded "hard times dance." But the name is not to be taken literally—it is an affair that will make it possible to bring a smile into the lives of many girls on the eve of December 26, "the day of the year." The east bay girls will hold at Pithian Castle a "widows' and orphans' Christmas night" for present and past beneficiaries of the order.

The names of such people as they will gather for this jolly-up are held sacredly. All they want is to get the names and addresses into the custody of Venerable Secretary John Brill, at 3033 Brighton avenue, Oakland. The "boys" will do the rest.

Mrs. Wiley K. Hicks, wife of a prominent member of the local council, is an active aide to Chairman Carl Remmel of the dance committee in assuring a record crowd this evening.

#### Dyes and Drugs Now Made in America

PITTSBURGH, Pa., Dec. 2.—Dr. Raymond F. Bacon, director of the Mellon Institute of Industrial Research of the University of Pittsburgh, in a speech yesterday declared that the hundred most essential dyes and the hundred most needed drugs, the supply of which has been cut off by the European war, are now being made in the United States. He said America did not intend at present to make the thousand of coal tar and medicinal products which have been made in Germany, but the important ones would be manufactured here. As an instance of the rapid growth of the chemical industry in this country he said that four companies have recently been formed in the Pittsburgh district and that two of the plants have already been opened.

"If reasonable government protection can be given to the industry in its early stages American technical skill will show itself able to build up in America a chemical industry which will be sufficient to take care of American needs and to get its share of world trade," Dr. Bacon declared.

Millionaire Padre of South Seas Arrives

SAN FRANCISCO, Dec. 3.—After an absence of only a month from San Francisco, Father Emmanuel Rousier, millionaire padre of the South Seas, is back again in this city. He arrived on the Moana from Tahiti yesterday morning accompanied by his wife, Miss Marjorie Rousier, and her traveling companion.

"I am here for several weeks and my principal business is to arrange for the building of a power schooner in San Francisco," said Father Rousier. "This vessel is for my personal use in the islands and I may go back in her from time to time."

Father Rousier is the most picturesque figure in the South Seas, where he has been a dominating force for the past quarter of a century. He owned the three islands of Fanning, Washington and Christmas. Two years ago he sold Fanning and Washington for several million dollars to a British syndicate and now controls Christmas Island only.

**"SUNDAY" CONTRACT LEGAL**

JEFFERSON CITY, Mo., Dec. 2.—The validity of contracts for advertising in Sunday newspapers was upheld by the Missouri Supreme Court yesterday. The issue was a suit of the Pulitzer Publishing Company (St. Louis Post-Dispatch) against Harry C. McNichols for part payment on a contract for Sunday advertising. McNichols' defense was that the publication of a newspaper on Sunday was a violation of the State Labor Law. The St. Louis court of appeals decided against the Post-Dispatch, which appealed to the Supreme Court.

**HAPPY OLD AGE**

When old age comes with it hosts of friends, good health and an abundance of this world's goods, it should be as happy as it should be, for often when it means poor digestion, torpid bowels, sluggish liver and a general feeling of ill health, despondency and misery. This can be relieved by taking one of Chittenden's Tablets each day immediately after supper. Then will strengthen the digestion, tone up the liver and regulate the bowels. The result is that despondency will give way to one of happy and good cheer. For sale by Osgood Bros. Drug Stores.

# SAFETY FIRST

## To Automobile Drivers

ALWAYS REMEMBER—a street car cannot be stopped instantly or turn out for vehicles. It operates on fixed rails. It cannot dodge.

Our employes are instructed to use the greatest care possible in operating cars.

An attempt to save a few seconds by dashing in front of a street car may mean a long time in the hospital.

IT IS BETTER TO BE SAFE THAN SORRY.

CARELESSNESS is the cause of most collisions and injuries.

If you will co-operate with us by being careful and using good judgment on approaching street car tracks, many collisions and injuries will be avoided.

## The Best Safety Device Known Is a Careful Person

# ACCIDENTS

Increased number of "Pay as you enter" cars in service, together with added efficiency and careful operation has resulted in a decrease of ALL CLASSES of accidents except those CAUSED BY AUTOMOBILES.

In the ten months of this year, compared with the same period of last year, automobile accidents increased 35.74 per cent. All other classes of accidents combined decreased 35.8 per cent.

AUTOMOBILE ACCIDENTS SHOW A STEADY AND ALARMING INCREASE. Ninety per cent are caused by absolute carelessness on the part of automobile drivers and disregard of the TRAFFIC LAWS OF THE CITY.
